ABOUT ME

This summer, I have been working in software development at **Kóði ehf.** on a summer contract, updating their website Hluthafaskra.is. This winter, I will be completing my final year in **Computer Science** at Reykjavík University, and will only be taking two courses each semester, which gives me great flexibility to work alongside my studies – even full-time.

I was on **the Dean's List** in the spring semester of 2024, and worked as a teaching assistant in the spring semester of 2025 alongside my internship at Kóði.

I have broad experience from various workplaces and projects, but have firmly found my field of interest in software engineering. I look forward to taking on any task assigned to me, and will put in my full effort to achieve success. Some examples of school projects and personal projects I have completed during my summer breaks in 2021–2024 can be found on my GitHub page (under Contacts).

EXPERIENCE

Jan 2025- Aug 2025	Kóði ehf. (Hluthafaskrá.is) – Software Development
Jan 2025- Maí 2025	Háskólinn í Reykjavík – Teaching Assistant
Maí 2024- Aug 2024	Hyundai BL Automotives – Cargo Delivery Driver
Maí 2023- Aug 2023	Sky Lagoon – Lifeguard
Des 2021- Des 2022	Ístak – Carpenter (unstudied)
Okt 2020- Des 2021	1001 Verk – Carpenter (unstudied)
Maí 2020- Okt 2020	Coripharma – Team leader
Aug 2018- Des 2019	1001 Verk – Carpenter (unstudied)
Maí 2018- Aug 2018	Norðurál – Starfsmaður í Kerskála (m/lyftarapróf)

EDUCATION

Aug 2023-
Maí 2026 **Háskólinn í Reykjavík** – Computer Science
(current)

Aug 2019-
Okt 2020 **Háskólinn í Reykjavík** – Mechanical Engineering
(unfinished)

Aug 2015-
Maí 2018 **Verzlunarskóli Íslands** – Physics specialization

TECHNICAL SKILLS

Python (5+ years) – Extensive programming experience with six academic courses covering diverse applications. Highlight project: NanAir, a scheduling system for a fictional airline, awarded the highest grade in class. Code available on GitHub.

Web Development (3+ years) – 8 months' professional experience at Kóði ehf., enhancing Hluthafaskrá.is with new functionality and improved UX. Backend: .NET with SQL database. Frontend: Razor Pages (C#) and JavaScript. Additional academic background from three web development courses.

Other Languages – Working knowledge of Java, C++, C#, DrRacket, Smalltalk, MATLAB, and R.

COLLABORATION

Strong teamwork skills developed through group projects in both academic and professional settings. Known for fostering cooperation, maintaining clear communication, and contributing to positive and productive team dynamics.
